- ❑ A more strategic and forward-looking standards setting process
- ❑ A more vibrant and systematic process for capturing and sharing best practices

Why SEAMEO College

1. The need to prepare for the future and its challenges

- ☐ a more global outlook
- ☐ a stronger fortitude for regional cooperation
- ☐ new and more innovative ideas

2. Support to ASEAN Community

- ☐ human resource development
- ☐ intellectual connectivity

The Specific Objectives

1. **To create a flagship initiative to respond to the ministerial direction** in visioning SEAMEO as being more efficient and responsive to regional needs
2. **To enhance leadership of SEAMEO** through specialized and high quality programme utilizing the cross cutting and innovative ways of knowledge delivery and practices
3. **To create a platform for sharing and exchanging of ideas, practices and research**
4. **To strengthen the integration of regional human resource development** particularly in terms of promoting indigenous wisdom and talent in the region
5. **To support ASEAN's Work Plan on Education**, particularly in narrowing development gaps, preparing the youth for regional leadership, and enhancing competitiveness of the peoples of ASEAN

How is SEAMEO College implemented

1. SEAMEO College is being implemented collaboratively by the SEAMEO Regional Centres as **implementing agencies**.
2. The SEAMEO Secretariat serves as **executing agency** and funds conduit. A **project management office** is set up and is attached with the SEAMEO Secretariat.
3. The **Project Management Committee** composed of Centre Directors from 10 SEAMEO Countries oversee project implementation.
4. **Internal and external advisory boards** provide technical guidance and serve as think tank for the project.

4 Key Regional Issues

1. **Bridging regional divides** such as disparities in education and skills attainment between low and middle-income countries
2. **Accelerating the process of creating a common space in education** such as harmonizing regional frameworks for common standards in education
3. **Social needs and market demand signaling systems for technical manpower** such as changing labor demand in Southeast Asia with a view of developing a regional labor market
4. **Post-2015 education agenda** in Southeast Asia
