Dear Assoc. Prof. Dr. Pratap,

Please refer to your letter Ref. TROPMED/067/2021 dated June 29, 2021 regarding a request for our endorsement of the health project “Promoting One Health Education in Thai Border School” to be implemented by the SEAMEO TROPMED Network in collaboration with SEAMEO STEM-ED, SEA OHUN and Chevron.

In this connection, the Ministry of Education of Thailand fully endorses the project as it will help promote the concept and operation of “One Health” among students and school officials/teachers in border schools to reach underprivileged and under-reached population and enable them to cope with the emergence of several zoonoses, such as bird flu, Ebola, Zika and the COVID-19 pandemic.

Yours sincerely,
